

# Include IARC in your ResearchGate profile

**Step 1.** Log in to ResearchGate and select your profile

**Step 2.** Click Edit to make changes. Make sure that your affiliation is *University of Alaska Fairbanks* (not University of Alaska System) and that your department is *International Arctic Research Center*. In order for IARC to show up in a search you cannot include more than one affiliation in the Department section.

**Step 3.**

Edit your affiliation.

Start typing a few letters of *University of Alaska Fairbanks* in the Institution field and *International Arctic Research Center* in the Department field.

Each name should appear as a list item in the drop-down menu.

**Step 4.**

Add other affiliations as a LAB.
